PROJECTS

December 2023 – January 2024:
 Designed and developed a website for a language center using tools such as VSCode, MySQL, XAMPP, as well as Figma and Visual Paradigm.

March 2024 – April 2024:
 Worked on the creation and design of a website for a first-instance court.

February 2025 – April 2025:
 Developed and designed an event management system for room reservations, using Laravel for backend development and Bootstrap for the frontend dashboard. The project included room management, bookings, payments, and user management, with a strong focus on user experience and site performance.

Key Skills

CSS PHP C++ HTML React MySQL Laravel JavaScript Bootstrap
